

## **ICE DYEING WORKSHOP**

**Thursday, April 17, 2025**

**Limited to Guild Members .**

**Advanced registration is required to ensure kits for everyone.**

**DON'T WEAR YOUR "BEST" CLOTHES  
IN CASE OF SPILLAGE**

Since many of our guild members have expressed an interest in learning to do Ice Dyeing we are excited to be able to do ice dyeing together in April! We will start the workshop during our normal monthly meeting program and continue into the afternoon. It takes approximately 4 hours for the dye to process and creates 3 yards of beautiful fabric!

**A \$40 kit is required for this workshop and is to cover the cost of the supplies.**

Kit includes:

- 12 Fat Quarters to Dye
- Suspension Screen for your drip bin
- 3 colors of dye (select either brights or darker colors including a red, blue and yellow). Jody will have samples at the March meeting for you to select your kit.
- 3 Containers to mix your dye
- 3 squeeze bottles to apply dye
- 1 small funnel to fill bottles
- Gloves

Supplies you need to bring for class:

- 8-10 pounds of ice (in a cooler)
- Drip Bin – 18" X 26" (approximately 6 inches deep) plastic bin
- 8-10 large Binder Clips (will be used to fasten the drip screen to the plastic bin.)
- A roll of paper towels
- Mask – The dye is not toxic, but you don't want to breath in the small particles when we mix the dye.
- A garbage bag to put your supplies in after the class to transport them home.

Note: You will also need Syntropol for use at home a few days after the class. You might want to partner with another class member to purchase a small bottle together since you will only need a small amount of Syntropol.

## ICE DYEING CLASS REGISTRATION – APRIL 17, 2025
