Welcome to Quiltin' Time ... where the goal is for you to enjoy your time quilting!

A bit about Mary Jo... Yackley

I am a fourth generation quilter and have been involved with fabrics as long as I can remember. Both my bachelor's and master's degrees were textile based. During my graduate studies at Purdue University, I taught undergraduate textile courses. I started quilting with my mom in 1986 and have been completely caught up in quilting ever since. I have taught quilting classes at shops, retreats, guilds, seminars and on quilting cruises.

Since 2002, in addition to teaching quilting, I have operated **Quiltin' Time** - a long arm custom machine quilting service. I also design a line of quilt patterns under the same name. My designs are inspired by antique quilts, nature, travel, children, fabric and color. Inspiration is everywhere in our world and just about anything can set me off on a creative journey of designing another quilt. I especially enjoy exploring and mastering new techniques and approaches to simplify quiltmaking, and teaching those ideas to others. I hope you will find some of my ideas appeal to you and inspire your creative journey as well.

The purpose of Quiltin' Time is to make the journey of quiltmaking more fun, more educational and more exciting.

Happy Quilting!

Thurs, Sept 22 - Lecture: Appliqué: Primitive to Painterly

Appliqué has progressed over time from primitive to painterly. Using both historical and current samples, we can follow that development. Then we will spend some time exploring an artist's approach to fabric selection in appliqué and view samples of how this really works. Considering light sources and shading (of your subject &/or your fabrics) can greatly enhance the overall effect of your appliqué designs. These concepts will take your appliqué from 'very nice' to 'WOW!'

Fri, Sept 23 Workshop - Let's Play with Paint \$25.00 Plus Kit Fee

1 day class - All Levels (9:30am - 4:30pm)

Spend a day playing with fabric and paints - as much fun as going back to elementary school! We will explore many different techniques of painting fabric to achieve a variety of effects. Students will go home with 3 yards of painted fabric. Be sure to wear old clothes and be ready to play. **Kit fee:** \$55 includes 3 yards high quality PFD (Prepared For Dyeing) fabric, fabric paint, salt, brushes and paint palette.
