# Ponytail Hair Knot

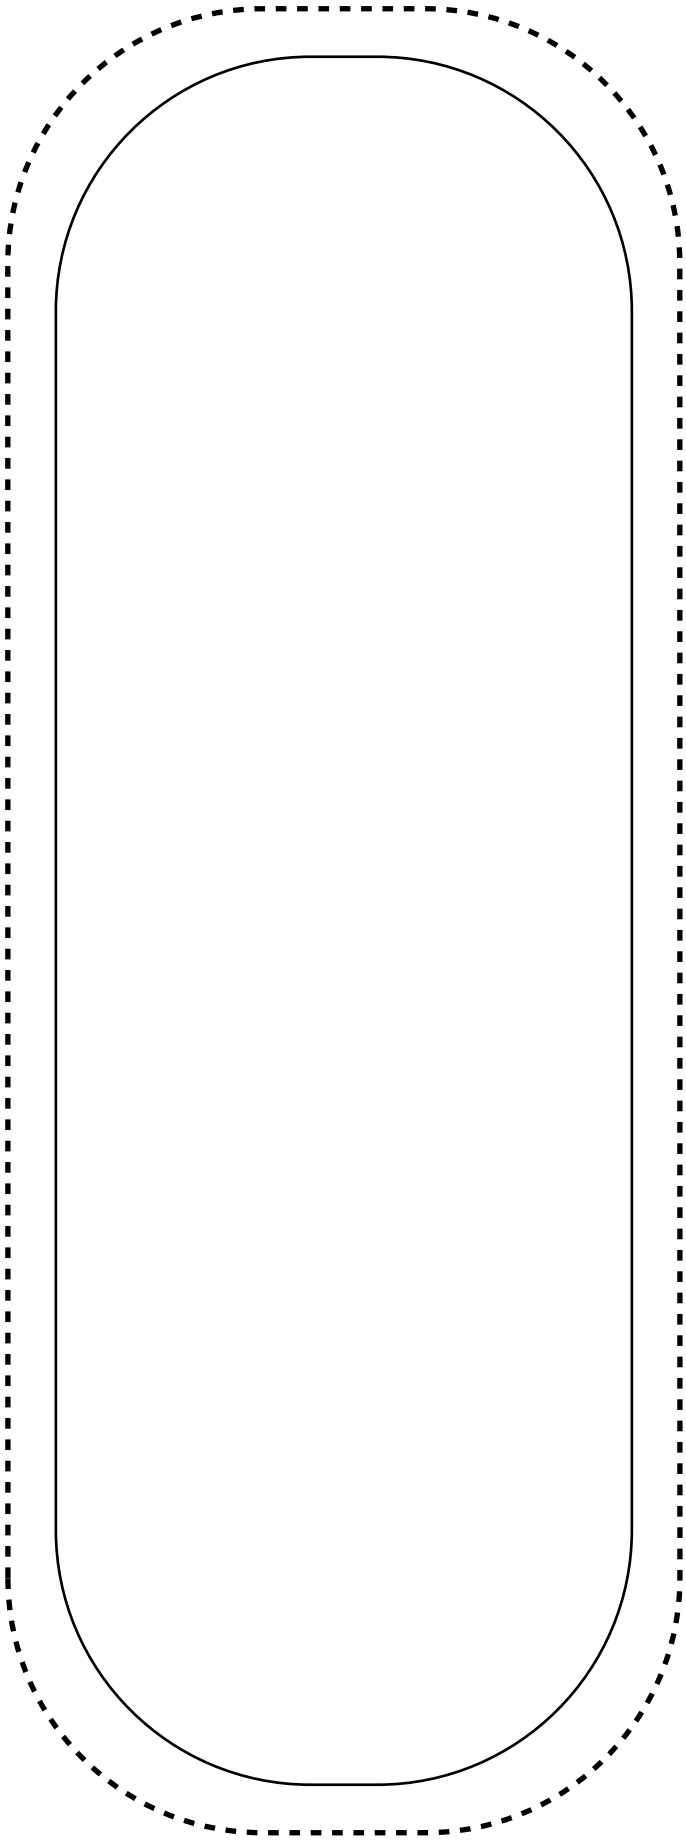
Supplies:

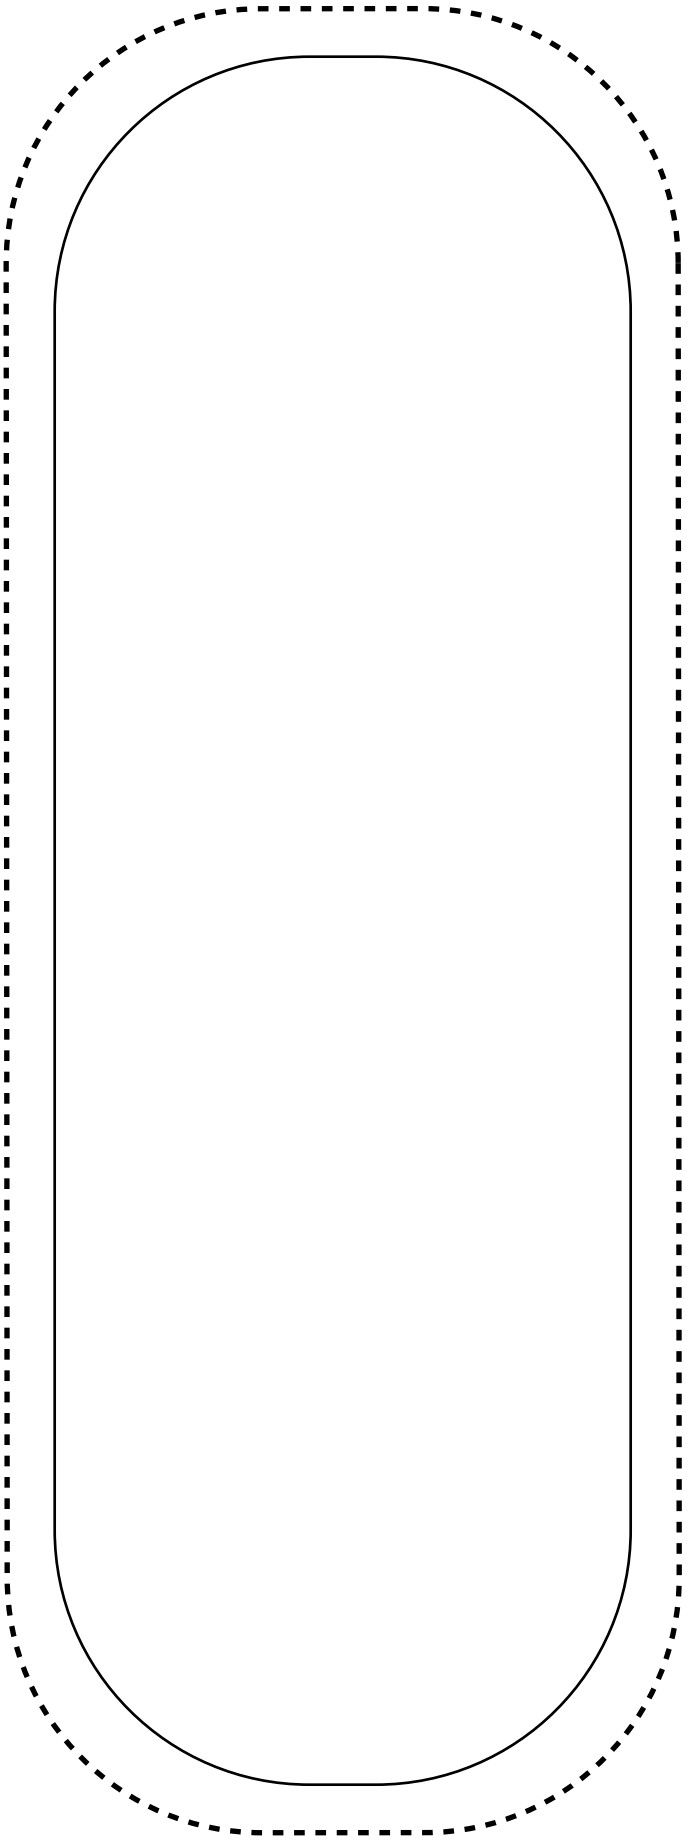
| | |
|---|---|
| fabric | fusible interfacing |
| scissors | pattern (inclosed) |
| hair elastic | sewing tools |

Procedure:

- Trace one pattern onto folded fabric to cut out two at a time.
- Iron fusible interfacing onto one piece of the fabric.
- Sew the two pieces right sides together, leaving an opening along one long edge for turning.

- Clip curves before turning.
- Turn fabric right sides out.
- Iron flat.  No need to sew the opening closed - it won't show!
- Put one end of the fabric through a hair elastic and tie into a knot.

# Patterns for ponytail hair knots




You only need one pattern per hair knot.
Cut pattern out of two pieces of fabric and one piece of fusible featherweight interfacing.
